VODICE CULTURAL HERITAGE

We guard secrets of the ancient Illyrians and ancient culture. Our medieval churches, stone buildings, cultural monuments and historic heritage are a lasting wealth that inspires, so be sure to visit them!

Inhabitants of the ancient settlement of Arauzona never suffered from thirst. Centuries later, proof of that fact still exists: a Roman cistern that would collect pure rainwater.

okit hill is the home of a legend of a field maple that, standing tall next to the church, would blossom every third Christmas. The tree has been cut down, but the legend lives on among the locals. A new field maple has been planted at the exact same spot and just might blossom this very Christmas...

OUR TRADITION AND CUSTOMS

Our cherished traditions and customs will show you why you must experience Vodice with all of your senses. We will give you insight into the daily lives of our ancestors through all of the rich and beautiful colours of folk costumes and the glistening shine of the spears of Zudias (Žudiji - guards protecting Christ's tomb).

For over a century, Zudias, young men dressed as Roman soldiers, bring to life the Easter customs of Vodice. To be a Zudia is a great honour.

ISLAND PRVIĆ

The parachute, suspension bridge and olive mill are only some of brilliant Faust Vrančić's inventions. They are displayed in their real sizes at the Memorial Centre dedicated to this scientist whose contribution to humanity is remarkable.

Once a fashionable summer vacation spot for families of nobles, today it is an oasis of beauty and peace where Faust Vrančić found his final resting place. It is easy to reach Prvić, and the time spent there will leave you with unforgettable memories.
